Please amend Claim 26 as follows:

26. (Twice Amended) A vaccine for inducing an immune response comprising an antigen from a pathogen conjugated to a Dendritic and Epithelial Cell-205 (DEC-205) ligand, wherein the DEC-205 ligand is an anti-human DEC-205 antibody or an anti-murine DEC-205 antibody reactive with a human DEC-205 protein and an immune stimulator.
